

PRODUCT OVERVIEW

Crest Showers offer 2 types of bath screens, each able to offer the right solution for a bathroom design. Both products suit most wall and bath styles.

Alto 10mm frameless glass bath screens are the sturdiest and most reliable in New Zealand, providing an unparalleled level of safety while still remaining cost effective. Alto has a range of ready to order sizes and styles, but has the added feature of being fully customisable. Alto bath screens are reversible and can be mounted on the short or long side of the bath.

Zenith 5 and 6mm frameless bath screens are designed for an easy, affordable solution to personalising a bathroom. Designed to swing both inward and outward, with a range of panel styles, Zenith is a great option to finish off the bathroom space.

WHICH BATH SCREEN IS FOR ME?

Alto 10 mm frameless glass offers the best level of safety and quality in the bath screen market. Combining this with fully customisable sizing, the Alto is the right product for you if you have a specific design in mind or a difficult space to get right. The clean, frameless glass panels accentuate your bath area and can add to the overall aesthetic of your bathroom. Suitable for most bath or wall types, Alto offers the complete solution to any bathroom.

Zenith 5 and 6mm frameless glass bath screens are designed to be simple and hassle free, while still maintaining Crest Showers high standard of quality. Easily installed onto most bath and wall style means Zenith is the perfect product if you like an affordable, no fuss solution to completing your bathroom.
